

## HOME AUTOMATION UNIT

CODE DESCRIPTION	CODE	PRICE
HOME AUTOMATION UNIT:	NH-DO	€409.90

### DESCRIPTION

The NH-DO module allows the control of each of its motorized diffusion elements by means of an external device which can be a standard thermostat or a home automation system.

The control of the different motorized elements can take place in 2 ways:

- with standard thermostat with relay output compatible with the zone contact of the Koolnova control unit.
- with a home automation control unit which will connect to all the different motorized elements through actuators.
