DUST FREE®
Breathe The Difference.

Prenditi cura della tua salute, migliora la qualità dell'aria che respiri!

I moduli **Dust Free®** generano radicali ossidrilici e molecole di perossido di idrogeno che, trasportati dal flusso dell'aria, sono in grado di distruggere gli agenti inquinanti quali batteri, virus, muffe, allergeni ed odori che incontrano nei canali, in ambiente e sulle superfici!

Agisce in maniera attiva 24 ore su 24 nell'aria e sulle superfici!

SETTORI DI UTILIZZO

- ALIMENTARE / TRASPORTI ALIMENTARI**
Eliminazione di muffe e batteri.
Miglior conservazione = più freschezza e qualità
- INDUSTRIALE**
Sanificazione di canali ed ambienti con abbattimento degli inquinanti chimici/biologici. Ambiente di lavoro più salutare.
- MEDICALE / OSPEDALIERO**
Abbattimento della proliferazione di batteri.
Ambiente sanitario meno esposto alla contaminazione batterica.
- RESIDENZIALE**
Eliminazione di batteri, allergeni ed odori. Ambiente più salutare e confortevole.
- UFFICI / LUOGHI DI LAVORO**
Eliminazione di batteri, allergeni ed odori.
Diminuzione del tasso di malattia.
- RISTORANTI / ALBERGHI**
Eliminazione di odori e batteri.
Permanenza nei locali più gradevole e duratura.
- TRASPORTI**
Eliminazione dei batteri.
Minore esposizione alla contaminazione batterica.
Ambiente più salutare e confortevole.

MAIN SECTORS OF USE

- FOOD / FOOD TRANSPORT**
Elimination of mold and bacteria.
Better conservation = more freshness and quality.
- INDUSTRIAL**
Sanitization of ducts and environments with destruction of chemical/biological pollutants.
Healthier work environments.
- MEDICAL/HOSPITAL**
Destruction of bacteria proliferation.
Healthcare environments less exposed to bacterial contamination.
- RESIDENTIAL SYSTEM HVAC**
Elimination of bacteria, allergens and odors.
Healthier and more comfortable environment.
- OFFICES/WORKPLACES**
Elimination of bacteria, allergens and odors.
Decreased disease rate.
- RESTAURANT/HOTELS**
Elimination of odours and bacteria.
Most pleasant and long-lasting stay in the premises.
- TRANSPORT**
Elimination of bacteria.
Less exposure to bacteria contamination.
Healthier and more comfortable environment.

Take care of your health, improve the quality of the air you breathe!

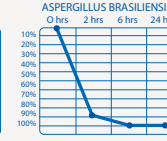

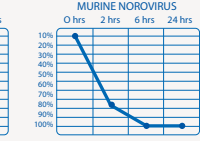

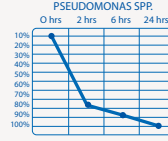

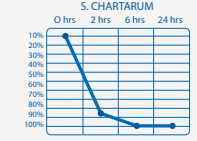

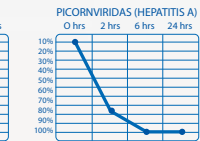

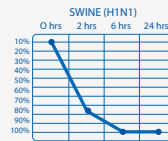

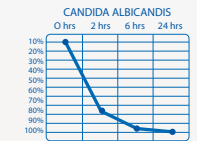

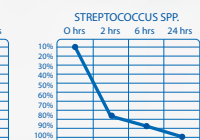

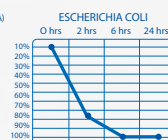

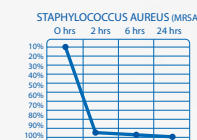

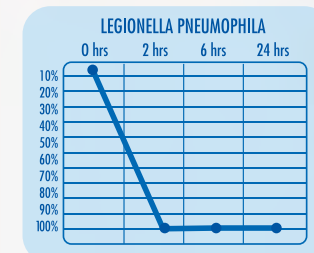

The **Dust Free®** modules generate hydroxyl radicals and hydrogen peroxide molecules which, transported by the air flow, are able to destroy pollutants such as bacteria, viruses, molds, allergens and odors they encounter in channels, in the environment and on surfaces!

It acts actively 24/7 in the air and on surfaces!

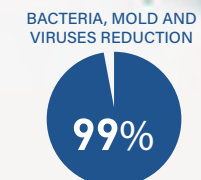

Benefits of
PCO™ Technology

EFFECTIVE TECHNOLOGY AGAINST Human Coronavirus 229E.
ABATEMENT IN THE LABORATORY UP TO 99.99%.*
* Test carried out in collaboration with
Eurofins according to the European standard EN 12453

"Breathe The Difference"
Active Sanitizing systems
Europe & MENA **DUST FREE®**
Breathe The Difference.
It acts actively 24 hours a day in the air and on surfaces!
